

## Skating Club of CNY Basic Skills Initiation Program

The Skating Club of CNY is pleased to offer a transitional program for learn to skate students to become familiar with the club setting. This program is offered for a six-month period to introduce the skaters to private lessons during “club” ice time. This program is designed to help spark the skater’s interest and determine if figure skating is a sport in which they want to become more involved.

For the duration of six months, the Skating Club of CNY will offer a reduced ice rate of \$7.00 per 45-minute session. During that period, initiation skaters may purchase as much ice time as they wish at the reduced rate. Our staff professionals have also reduced their teaching rates during this period.

The program will give your child the opportunity to experience rapid progression through the benefits of private, one-on-one instruction. The teaching rate for a 15-minute lesson will be \$8.00 during initiation. After the program has ended, the coaches will resume charging their regular lesson rate.

At the end of the six-month initiation program, the skater can choose to join the club and continue with their private lessons. As a member of the figure skating club, you will be able to purchase ice at a package rate. The coach you choose for private lessons will charge their individual standard lesson fee.

We hope each student finds the initiation program both educational and enjoyable and chooses to continue in figure skating.

You may contact any one of the designated coaches listed below to arrange lessons for the initiation program upon sign-up. When registering at our club desk, please be sure to mention you are interested in the Basic Skills Initiation Program to ensure that you receive correct pricing.

For more information on how to join our club, please go to the Skating Club of CNY web site, [www.sccny.org](http://www.sccny.org), talk to any of the desk monitors or one of the club’s staff professionals.
